General Comments:

These comments have been collated from the additional comments in our survey.

Everything is thorough and covered.
It looks like a very good syllabus
I think the curriculum has been sensitively designed.
It's very comprehensive.
All staff communicate well.
The summary prior to the relevant classes is helpful as it helps us to answer any questions the kids may have and understand what they have learnt. Thanks for your support with all of this, so important for the children to have this education.
The curriculum has a balanced approach. I also appreciate the level of material you've shared in this way so that those of us who work full-time and are not able to drop into school to learn more can still take an active part in our children's school lives and understand what's happening day to day in terms of their learning.
Everything is covered well.
